

System-Level ESD Testing in ma-tek

● ESD guns:

(1) EM Test ESDP30C

(2) Noiseken ESS2000

● ESD testing capability:

Output voltage : 0.20~30.0kV

Polarity : positive(+) or negative(-)

Charging resistance : 10MΩ

Discharge mode : Air discharge and Contact discharge

● Testing standard: IEC61000-4-2

- **Potential applications:** LCD, LCM, Notebook, TV, Audio, Cell Phone, digital camera, and any electronic systems.
